Language			English				
Course Level			Bachelor				
Description			This is an introduction to theory and methodology of Linguistics, which is considered to be the scientific study of language. Students will gain knowledge about different branches of Linguistics such as - Phonetics, Phonology, Morphology, Syntax and Semantics. This will be achieved by exploring the most complex nature of human language from social and biological point of view. We will consider language as an element of human knowledge and will develop required information to understand and analyze language.				
Objectives			Scientific view of human language. Language will be considered as a system of structure form and understanding. Biological, psychological, cultural and social aspects will be also taken into consideration. Connections between language and education will be also analyzed.				

Course Outline

Week	Topics
1	Language and Linguistics
2	Spoken and written language

Learning Outcomes and Competences			
1	Students will analyze theoretical, experimental and other models in Linguistics		
2	Students will appreciate relationship between linguistics data, and theories of Language Learning.		
3	Students will develop knowledge to study Linguistics, analysis of discourse, or other similar problems in an advanced level		
Course Evaluation Methods			
	In-term studies	Quantity	Percentage
	Midterms	1	20
	Quizzes	2	20
	Projects	0	0
	Term Projects	0	0
	Laboratory	0	0
	Attendance	1	10
	Contribution of in-term studies to overall grade		50
	Contribution of final examination to overall grade		50
	Total		100
ECTS (Allocated Based on Student) Workload			
	Activities	Quantity	Duration (hours)
	Course Duration (Including the exam week : 16 x Total course hours)	16	3
	Hours for off-the-classroom study (Pre-study, practice)	14	3
	Assignments	0	0
	Midterms	1	9
	Final examination	1	14
	Other	2	6
	Total Work Load		125
	Total Work Load / 25 (hours)		5
	ECTS		5
