Course Level			Bachelor				
Description			The subject "Knowledge about Kuran and its translation" is in introductory form in the sciences of Kuran. We will discuss the broad definition of Kuran, ways of divine proclamation, history of the text of Kuran up to modern days. We will study all the historical periods and physical changes that has undergone the book and its components during the history. Analysing a text can be gained knowledge about its translation, which is important for every one who does not have the Arabic language as his mother tongue. This subject prepares the student for the sciences of Kuran				
Objectives			It aims to give to the students the basic knowledge about the sciences of Kuran, supplying them with a relative information on the issues of descending and transmittion of Kuran text. So it is aimed presentation a clear portrait of divine book
