Description			Mass communication includes a wide distribution of information more or less simultaneously to large audiences. This course addresses the fundamental nature of mass communication, organizations and tools that comprise it, the media and the means by which it relates and the audience that uses it. It is an introductory course to the mass media, the distinctive features, some basic theories of communication, organizational issues in terms of ownership, modern technology, etc. The course examines the ways how special media means such as newspapers, books, radio, TV and new media help in the formation of social reality. In particular it will be analyzed the opinion-making techniques directly through the mass media. A special attention will be devoted to the audience involvement and its impact on the mass media				
Objectives			This course will help students to: □ understand the value that communication; particularly journalism has in building a free society. □ acquire knowledge on the evolution of media □ learn ways on identifying and better using resources for a qualified journalism in order to be better informed. □ develop ethical values, professional attitudes and personal skills needed for their preparation as communication specialists
