Lecturer Klevis Topi, Msc									
	Assistant								
Course language Albanian									
Course level Bachelor									
	Description	In this course students will have the opportunity to practice the knowledge gained during these three years in one of the established institutions in the field of Information and Communication Technology at private or public companies, applying the knowledge obtained in a specific subfield							
	Objectives	The main methodologies from which students will benefit are the combination of theoretical aspects with practical aspects. Students will be introduced to various aspects of administering and managing information and communication technology systems, structuring information in databases, administering computer networks, Web programming and design, distributed systems, and virtual reality.							
Co	ore Concepts	Metodologjitë kryesore nga të cilat studentët do të përfitojnë janë ndërthurja e aspekteve teorike me aspektet praktike.
