CMP 318	D	Spring	2.00	1.00	0.00	2.50	7.00
Lecturer		Brikena Smajli, PhD					
Assistant							
Course language		Albanian					
Course level		Bachelor					
Description		In this course students will have the opportunity to practice the knowledge gained during these three years in one of the established institutions in the field of Information and Communication Technology at private or public companies, applying the knowledge obtained in a specific subfield.					
Objectives		The main methodologies from which students will benefit are the combination of theoretical aspects with practical aspects. Students will be introduced to various aspects of administering and managing information and communication technology systems, structuring information in databases, administering computer networks, Web programming and design, distributed systems, and virtual reality.
