Course Name : Final Exam/ Graduation Project								
Course Code	Course Type	Regular Semester	Lecture (hours/week )	Seminar (hours/week )	Lab. (hours/week )	Credits	ECTS	
CMP 320	Е	Spring	0.00	1.00	0.00	0.50	7.00	
	Lecturer Brikena Smajli, PhD							
	Assistant Arti Omeri, PhD							
Cour	se language	Albanian						
	Course level	Bachelor						
	<b>Description</b> In this study phase the student will implement all gained knowledge and skills during the study program.					ls		
	Objectives This course aims at rapeating the core courses of this program							
Co	ore Concepts	Concepts Programming, Systems, Computer Networks, Security, Servers						
Course Outlin	ie							
Week	Topic							
1	Introduction							
2	Review about the course: Java Programming							
3	Review about the course: Information and communication systems							
4	Review about the course: Computer Networks							
5	Review about the course: Operative systems							
6	Review about the course: Data Security							
7	Review about the course: Server maintenance							
8	Questions set delivery							
9	Discussion about the questions set of the course: Java Programming							
10	Discussion about the questions set of the course: Information and communication systems							
11	Discussion about the questions set of the course: Computer Networks							
12	Discussion about the questions set of the course: Operating systems							
13	Discussion ab	Discussion about the questions set of the course: Data security						
14	Discussion about the questions set of the course: Server maintenance							
15	Review							
16	Final exam							

	Prerequisites	The student must attend the course at a minimum rate of 75%.			
	Literature	• Dispencat e leksioneve dhe librat e rekomanduar nga lektorët përkatës.			
	References	•			
Course Ou	tcome				
1	To know and have skills in the Java language.				
2	To have theoretical and	and practical foundations in information systems.			
3	To know the basics of o	asics of computer networks.			
4	To know the key featur	features of operating systems.			
5	To know how to establi	To know how to establish and implement data security rules.			
6	To know how to perform the tasks of a server administrator.
