Description		This course aims to improve communication in general and especially communication on the topics of "Sustainable Development Goals". In a world where globalism is the key word, we must prepare students with global communication skills. In the SB Times Zones, students will develop language and writing skills by learning about topics related to different cultures and the world in which we live. we all live, ODG topics covered by this book such as: climate change, poverty, hunger, water crisis, gender equality, social and health welfare, quality education, life under water, life on land. invites students to be citizens of the world by learning about global issues that affect us all. Since the content of the book has parts from the real world, it is motivating, actual and on Thursday night develops critical thinking skills. By becoming more familiar with these objectives, they will be able to participate in various projects or conferences, having a sufficient vocabulary and language skills to communicate globally.					
Objectives		Students will be able to better understand the globalized world and the terminology used in relation to the Sustainable Development Goals. They will learn about Sustainability They will learn about climate change issues. They will learn to talk about issues that directly affect our lives. They will learn to write formal and informal letters addressed to institutions, NGOs or their friends. They will use the acquired vocabulary correctly and construct sentences with a regular structure. They will develop critical thinking skills. They will learn public speaking on current topics. They will be formed as individuals by completing their knowledge both linguistically and professionally, but above all by being competent in global communication
