Description	The course "Constitutional and Political System of Albania" is developed as a complete and mandatory course in the branch of Law. Its scope extends not only to the study of political institutions and the normative system, but also to the study of fundamental rights and freedoms and their protection. This study is carried out especially in the dimension of domestic constitutional law, but it is also perceived in the comparative and international plan. Also in this, the organization, operation and powers of the constitutional bodies will be explained and analyzed.
Objectives	At the end of the course, the student should know well the main constitutional principles in Albania as well as the contemporary ones of the European countries, including the ways of their implementation. Knowing the most important institutes of Constitutional law. Independent work on topics and essays about institutes in the field of constitutional law.
