Description		Master’s Thesis Study is an original study which has to be conducted based on independent research study, after completing theoretical and practical courses. Thesis work is related to a subject which was determined previously, and it is directed by an academic advisor. A co-advisor can be appointed if necessary. Advising consists of deciding the subject chosen, whether it can be based on a theory or not, information about accessing relevant knowledge about the subject, how to reach healthy and acceptable data from where, setting hypothesis, choosing suitable methods, analyzing results, who will benefit from the results, solution suggestions and directing further studies. All these activities are performed following generally accepted academic ethical rules. Master’s thesis study which is expected to make contribution to science is presented orally in front of the jury, and it is hoped to make publication from the work.
