Lecturer		Edona Llukacaj, PhD					
Assistant							
Course language		English					
Course level		Bachelor					
Description		The bachelor thesis is prepared individually by the student. The student conducts an independent research on a specific topic, proposed by him/her and approved by the department. Students should be able to do research and report on the whole process, which leads to the final text of the bachelor thesis. Students begin by identifying the study problem, data collection, data analysis methods, etc. They describe them in later stages in the research results. Students who attend this course have a supervisor in their research and the thesis that they prepare to graduate at the end of this study cycle.					
Objectives		The writing of an appropriate thesis for the level of the completed study cycle, which highlights the student's knowledge and research skills through a modest but complete contribution to the relevant field of study.					
Core Concepts		Methodology - Quantitative research - Qualitative research - Data - Theories and criticism - Analysis					
Course Outline							
Week	Topic						
1	Introduction to the syllabus. Familiarity of students with thesis follow-up procedures. Description of the role of the supervisor and the obligations of the students.						
2	Methodological session - Meeting with the thesis supervisor. Review of technical elements of the paper. Thesis format, number of pages, citation style, etc.						
3	Methodological session - Meeting with the thesis supervisor. Discussion on the literature and other resources that will be used during the preparation of the thesis. Recommendations on the theoretical framework of the thesis.						
4	Methodological session - Meeting with the thesis supervisor. Discussion on the methodology that will be used. Review of the most appropriate scientific methods for thesis preparation.						
5	Methodological session - Meeting with the thesis supervisor. Consultation on the progress of the work. Review of problems encountered in providing literature and support resources.						
6	Consultation session - Meeting with the thesis supervisor. Consultation on the progress of the work. Review of the theoretical chapter and discussion on the theoretical approaches that support the thesis work						
7	Consultation session - Meeting with the thesis supervisor. Consultation on the progress of the work. Review of the hypothesis and research questions.						
8	Consultation session - Meeting with the thesis supervisor. Consultation on the progress of the work. Review of the Analysis Chapter.						
9	Consultation session - Meeting with the thesis supervisor. Consultation on the progress of the work. Evaluation of empirical data. Discussion on data collection methods.						
10	Consultation session - Meeting with the thesis supervisor. Consultation on the progress of the work. Questionnaire review. Discussions on the sample and the level of representation.						

11	Consultation session - Meeting with the thesis supervisor. Consultation on the progress of the work. Evaluation of interviews and case studies taken into analysis.
12	Consultation session - Meeting with the thesis supervisor. Consultation on the progress of the work. Review of preliminary conclusions and recommendations that can be drawn from the paper.
13	Consultation session - Meeting with the thesis supervisor. Consultation on the progress of the work. Review of preliminary conclusions and recommendations that can be drawn from the paper.
14	Consultation session - Meeting with the thesis supervisor. Consultation on the progress of the work. Final recommendations on the findings and conclusions of the thesis.
15	Consultation session - Meeting with the thesis supervisor. Consultation on the progress of the work. Discussions on the thesis defense session. Recommendations on preparing the presentation for the defense session. Full analysis of the whole thesis follow-up process.
16	Final Exam
Prerequisites	The student must attend the course at a minimum rate of 75%.
Literature	• Literatura duhet të përshtatet / përzgjidhet në varësi të temës së trajtuar.
References	• Literatura duhet të përshtatet / përzgjidhet në varësi të temës së trajtuar.
Course Outcome	
1	Students, at the end of the process, are able to draw conclusions based on scientific methods
2	At the end of the process, the students have acquired in-depth knowledge on the subject of the study and further
3	Students, at the end of this process, are capable to present the findings of their work and argue the conclusions.
